1.0 INTRODUCTION

1.1 Purpose and Scope

The District of Columbia (DC) Government through the DC Homeland Security and Emergency Management Agency (HSEMA) implements the District Heat Emergency Plan when a heat emergency occurs and the National Weather Service (NWS) issues an “extreme heat warning” for DC. The District Heat Emergency Plan provides information on the District operations to aid all constituents, particularly vulnerable populations with health issues, the homeless, and visitors to the city.

On days when the “heat index” a measurement of the air temperature in relation to the relative humidity, used as an indicator of the perceived temperature, or temperature reaches 95, the DC Government will activate Cooling Centers. The Cooling Centers will be activated in publically accessible government facilities, homeless shelters, and senior citizen wellness centers, and will be open until 6:00 p.m., or until a time specified by the facilities below. HSEMA, in conjunction with the DC Department of Health (DOH), will also disseminate emergency public information to the public through the DC webpage at www.dc.gov.

1.2 Illegal Use of Fire Hydrants

The Executive Office of the Mayor strictly prohibits the activation or opening of fire hydrants anywhere in the District of Columbia for the purpose of street showering without prior consent from the Mayor, City Administrator, or Deputy Mayor for Public Safety and Justice. Unauthorized use of a fire hydrant can hamper firefighting capabilities and tampering with a fire hydrant can cause personal injury, damage to the hydrant or hydrant nozzle, and underground pipe lines in the water distribution system.

2.0 ROLES AND RESPONSIBILITIES

In the event of a heat emergency declaration, the following District Government agencies have important roles:

2.1 Responsible Agencies and Organizations

This plan is a collaborative planning effort by more than 17 different District agencies for the safety and protection of District residents and visitors.

2.1.1 District of Columbia Homeland Security and Emergency Management Agency (HSEMA)

HSEMA’s main responsibility is the coordination of responsible District agencies and organizations, listed below, to create and implement the heat plan.

2.1.2 Department of Fire and Emergency Medical Services (FEMS)

FEMS will report water pressure problems resulting from illegally activated or opened fire hydrants to the DC Water Emergency Command Center.

2.1.3 District of Columbia Metropolitan Police Department (MPD)

MPD will assist with responding to those areas where fire hydrants are being illegally operated and will provide support and response to DC Water if issues occur.

2.1.4 District of Columbia Public Libraries (DCPL)

All public libraries will operate as they do during normal business hours. The general public will be allowed entry to cool off but must obey all rules and regulations as permitted by each site.

2.1.5 District of Columbia Water and Sewer Authority (DC Water)

HSEMA will coordinate with the DC Water External Affairs Department, FEMS, and MPD to provide messaging to the public on the prohibition against illegal use of fire hydrants as street showers for the purpose of cooling. HSEMA will no longer activate the street showers program unless as directed by the Mayor, City Administrator, or the Deputy Mayor for Public Safety. If so directed HSEMA will immediately notify the DC Water Emergency Command Center (DCWECC), FEMS, the Office of Unified Command (OUC), and MPD.

2.1.6 District of Columbia Department of General Services (DGS)

DGS will ensure that security personnel in any government building that allows access to the general public for the purpose of cooling has been notified that a Heat Emergency activation has taken place. DGS Facilities will also notify HSEMA of any DC Government public facilities that are without air conditioning.

2.1.7 District of Columbia Protective Services Police Department (PSPD)

PSPD will make notifications to contract officers under their authority that a Heat Emergency activation has taken place and will be in effect until 6:00 p.m. that day.

2.1.8 District of Columbia Department of Human Services (DHS) and the Community Partnership for the Prevention of Homelessness

DHS and the Community Partnership for the Prevention of Homelessness will coordinate the opening and staffing of shelters for the homeless and provide water for persons remaining on the street when Heat Emergency activation is declared in order to prevent dehydration and heat stroke. The United Planning Organization (UPO) command center will make internal notifications when an alert is declared.

2.1.9 District of Columbia Office on Aging (DCOA)

DCOA will coordinate the activation of neighborhood cooling centers for senior citizens throughout the various Wards and make notifications and alerts to senior service organizations.

2.1.10 District of Columbia Department of Health (DOH)

DOH will assess the medical impact of the heat conditions and identify/inform the public of appropriate health precautions, and monitor hospital emergency room admissions related to heat illnesses. DOH will provide HSEMA information related to heat prevention with protective actions to the general public most notably those with health and medical issues.

2.1.11 District of Columbia Department of Parks and Recreation (DPR)

DPR will ensure that spray park locations and pools are activated at key neighborhood locations. DPR will open recreation centers in neighborhoods during major power outages if requested by HSEMA.

2.1.12 District of Columbia Department of the Environment (DDOE)

DDOE will assist in providing box fans to HSEMA to be used for emergency assistance to citizens after normal business hours. During normal business hours DDOE has established several programs designed to assist eligible residents with gas and electric bills as well as box fans.

2.1.13 District of Columbia Office of Unified Communications (OUC)

OUC will ensure that the DCWECC is notified of any fire hydrants that are opened without authority so they can be turned off. 311 will provide citizens information on the locations of open cooling centers and swimming pools.

2.1.14 Mayor's Office of Community Relations and Services

The Mayor's Office of Community Relations and Services will provide outreach and information to residents during a Heat Emergency. They will also provide the names of special need residents who may be impacted by the high temperatures and may need fans.

2.1.15 Serve DC

Serve DC will provide support for mission assignments during a Heat Emergency Activation, when needed.

2.1.16 District of Columbia Department of Consumer Regulatory and Affairs (DCRA)

DCRA will inspect and report residential units and buildings that are without air-conditioning and will identify those residents that may need fans after normal business hours and report such information to HSEMA.

2.1.17 District of Columbia Department of Transportation (DDOT)

DDOT will activate their internal agency plan when a Heat Emergency is declared. DDOT will provide heat protective actions for at risk and vulnerable employees working in field operations.

2.1.18 District of Columbia Department of Public Works (DPW)

DPW will activate their internal agency plan.

3.0 COOLING CENTERS, POOLS, AND SPRAY PARKS
