Tamitha M. Davis-Rama, Administrator, Family Services Administration, Department of Human Services

WELCOME
DC Department of Human Services

Second Taskforce Meeting Presentation
Additional Data on Family Re-Housing and Stabilization Program (FRSP)

October 8, 2019
Overview of Presentation

• Prelude: Update from Task Force #1 Meeting

• Part I: FRSP and HSRA

• Part II: FRSP and TANF

• Part III: FRSP Employment Presentation by the Lab@DC

• Part IV: Landlord Partnership
FRSP Task Force Purpose Recap

Purpose

Recommend improvements in these key areas:

- Customer experience and outcomes
- Efficiency and effectiveness of program delivery
- Oversight and accountability
Task Force #1 Meeting Updated Data - Eviction

DHS served a total of 2,413 families in FRSP in FY 18
DHS examined 882 consenting families who exited FRSP between October 1, 2017 and February 28, 2019
Percentages are reflective of those families whose data were shared with DC Superior Courts
‘Court-Ordered Evictions’ are cases in which the plaintiff filed a Writ of Restitution
Task Force #1 Meeting Updated Data – Return to Homelessness

- Families Exiting FRSP
  - Families Returning to Virginia Williams within 24 Months
    - Families Given other Interventions
    - Homeless Prevention Program (HPP)
  - Families not Returning to Virginia Williams within 24 Months
    - Families Placed into ES/TH
FRSP Exits and Return to Homelessness within 24 months

Returns after FRSP Exit within 24 Months

- Exits
- Returned to Virginia Williams
- Placed in ES or TH

* The above placement into shelter data includes families who were placed in shelter by Prevention Program after returning to VWFRC.
I. FRSP and Homeless Services Reform Act (HSRA)

• HSRA is the Statute and FRSP regulations clarify programmatic aspects of the overarching Statute.
• The HSRA regulations (now titled “Continuum of Care Programs”) that were published and are open for public comments through October 7, 2019 do not directly affect FRSP or the current FRSP Program Rules.
• Our current FRSP program rules for FRSP dated January 2019 are valid until January 2020
• The Continuum of Care regulations have new sections that apply to non-FRSP Rapid Re-Housing programs.
• These new sections will allow DHS to develop Rapid Re-Housing programs outside of the FRSP regulations. FRSP has its own set of regulations, which apply only to FRSP and have not yet been revised.
• We are aware that the FRSP regulations are now outdated; however, once the FRSP Taskforce process is completed – DHS will then submit recommendation revisions for the FRSP regulations.
II. TANF Services in DC

What is TANF?

- Temporary Assistance for Needy Families
- A public benefit program that provides cash assistance to families with dependent children
- A critical component of the TANF program is employment and training
DC’s Whole Family Approach

- Eliminating 60 Month Time Limits
- Enhancing the TANF Employment & Training Program
- Case Management
- Increasing Benefit Level
- Customer Incentives
CORE COMPONENTS OF A TWO-GENERATION APPROACH

- Social Capital
  - Peer and family networks, coaching, and cohort strategies

- Early Childhood Development
  - Head Start, Early Head Start, child care partnerships, preK, and home visiting

- Postsecondary & Employment Pathways
  - Community college, training and certification, workforce partnerships

- Health & Well-being
  - Mental, physical, and behavioral health, coverage and access to care, adverse childhood experiences, toxic stress

- Economic Assets
  - Asset building, housing and public supports, financial capacity, transportation
Career Exploration

Labor Market Information (LMI):
- Business Administration & IT
- Construction
- Infrastructure
- Healthcare
- Hospitality
- Security & Law

Career Pathway:
Career Ladder tools used to visualize the combination of education and experience needed to climb each rung

Education:
Increased focus & incentives for credentials and continued learning

Career Advancement:
Incentives and focus on stable, high-wage paying jobs that along with promotion potential, can lead to exit from TANF due to wages
## DC TANF Employment & Education Providers

<table>

</tbody>
</table>
Additional Services

• Scholarship program (TAPIT)
• On-the-Job (OJT) program
• TANF Ambassadors – customer lead policy and program recommendations for DHS operations
Role of TEP Case Managers

• Develop Individual Responsibility Plan that documents the activities the customer will engage in to achieve defined goals
• Address obstacles to engagement
TANF Exemptions

- Customers may be exempt from engaging in TEP services from pregnancy (3rd trimester) through the child turning one year of age.
TANF Power Programs

Customers experiencing:

- Temporary or permanent incapacity
- Care giver for household member with physical or mental incapacity
- Aged 60+
- Pregnant or parenting teen under 19
- Domestic violence
TEP Sanctions

• Sanction: Reduction in monthly TANF case benefit for failure to fully comply with TEP services
• Customer must meet weekly required hours
• If customers are not fully compliant, they may receive a 6% reduction in monthly benefits until compliance is met
## TEP Incentives

| Education Incentives (EOT) |  
|----------------------------|---|
| 1 day training completion  | $50 |
| 30 day training completion | $200|
| 1-3 month training completion | $400|
| 4-6 month training completion | $600|
| 7+ month training completion | $1,000|

| Job Placement (JP) |  
|-------------------|---|
| Job placement      | $150|
| Retention month 1 through 11 | $150|
| Retention month 12 | $500|
| Promotion         | $400|
| Exit from TANF due to earnings/4 months | $500|

| Both EOT and JP |  
|-----------------|---|
| $15 daily stipend for 4 or more hours of approved activity |  
| $250 per 12 months for discrete work related expenses |  

Clarifying Questions?
III. Group of Households by Source of Income

- **TANF** - HoH’s highest reported income is from TANF
- **Earning** - HoH’s highest reported income is from earned income
- **SSI** - HoH’s highest reported income is from SSI
- **Not Earning** - Of the income sources (earned, TANF, SSI), HoH reports receiving none
Program Data: Self Reported Source of Income

*This is self reported client income information. This report was generated on 7/19/2019.
Program Data: Number of FRSP Families in TANF Universe

- Total Number of Families Receiving TANF in DC: 91%
- Families receiving both TANF and FRSP: 9%
Median Household Size

Distribution of FRSP Household Size by Family Type

- Earning, n = 794
- Not Earning, n = 478

Household Program Length of Stay Across Income Source

LoS in FRSP by Family Type

- Earning: Median 528, 816 Families
- Not Earning: Median 546, 495 Families
- SSI: Median 605, 304 Families
- TANF: Median 620, 1477 Families

Source: HMIS, FY16 to Present, n = 2,189 Exit Families
Rent Amount Across Income Source

* In general, families receiving TANF have the lowest client portion and the highest total rent amount
Clarifying Questions?
IV. Presentation by The Lab@DC

- Preliminary Analysis:
  - Homelessness + Earnings in the District of Columbia
  - Nat Mammo, Nami Mody, Sam Quinney
  - October 8th, 2019
Please note that these analyses are preliminary and subject to change and refinement. They are meant only for initial discussions and will be followed by a written report.

These analyses are purely descriptive. None of the analyses should be interpreted to say anything about the effectiveness of homeless or employment services in DC.
The Lab @ DC

- The Lab uses scientific insights and methods to test and improve policies. We provide timely, relevant, and high-quality analysis to inform the District's most important decisions.
To our knowledge, this analysis is the first of its kind in DC. Many thanks to DOES and The Community Partnership for supporting ICH and The Lab @ DC in this interagency effort.

Multiple sets of data were combined for this analysis using Social Security Numbers (SSN). The data contained information from 2015 - 2018 on:

- Use of Homeless Services (HMIS)
- Quarterly Earnings from Employers based in DC

We found SSNs for 87% of adults in the homelessness data.
Our analysis explains what is happening, but not why.
Our analysis does not measure full-time vs. part-time employment, only wages.
People with serious mental illness (SMI), substance use disorder (SUD), and those in Permanent Supportive Housing (PSH) have been included in this analysis for informative purposes. It does not mean there is an expectation of full economic self-sufficiency for those individuals or for everyone in the CoC.

Our analysis underestimates how much adults earn.

Key Limitations

*In 2015, 67% of DC residents worked their primary job in DC. 31.5% worked in MD or VA. (Source: DOES Office of Labor Market Information)
Employed or Earning means an adult has reported wages in the given time period. This does not include benefit income, only wages from DC-based employers.

Stably Employed or Stably Earning means an adult has reported wages for four consecutive quarters. This does not mean that someone is employed full-time, that they are consistently employed throughout the quarter, or that they earn a meaningful amount each quarter.

Use of Homeless Services or in the Continuum of Care (CoC) includes Emergency Shelter, Transitional Housing, Rapid Re-Housing, Targeted Affordable Housing, and Permanent Supportive Housing.

Family Re-Housing and Stabilization Program (FRSP) Exit is defined as the recorded program end date in HMIS.

Analyses cover January 2015 - December 2018. In those four years:

- 10,000 adults in families used homeless services in the District.
- 5,800 adults using homeless services also earned wages from a DC-based employer.
1. 45% of all families in the Continuum of Care earn at some point during the calendar year they are in the CoC, but few are consistently earning throughout the year.

2. Earning, however, does not mean earning enough. While in the CoC, 2% of all earning families made at least 50% of the Area Median Income (AMI). In 2018, 50% AMI for a family of four was $58,600.

3. On average, earners in FRSP experience an almost $800 increase in earnings after entering FRSP. Of adults in families not employed in the quarter before entering FRSP, 16% gain stable employment while in FRSP.

*Please note that these analyses are preliminary and subject to change. All analyses are descriptive, and not meant to be interpreted as causal.*
45% of all families in the Continuum of Care earn at some point during the calendar year they are in the CoC, but few are consistently earning throughout the year.

*Please note that these analyses are preliminary and subject to change. All analyses are descriptive, and not meant to be interpreted as causal.*
Forty five percent of all families earn at some point during the calendar year they are in the CoC. However, 16% of families stably earn (earn during every quarter of the year).
Earning, however, does not mean earning enough. While in the CoC, 2% of all earning families made at least 50% of the Area Median Income (AMI). In 2018, 50% AMI for a family of four was $58,600.

*Please note that these analyses are preliminary and subject to change. All analyses are descriptive, and not meant to be interpreted as causal.*
On average, earning adults in families earn between $3500 and $4500 per quarter while in the CoC. Women earn less than men (about $1,300 v. $1,500/month, respectively).

<table>

*Please note that these analyses are preliminary and subject to change. All analyses are descriptive, and not meant to be interpreted as causal.*
Eight percent of **all earning families in the CoC** made at least 30% Area Median Income (AMI) while in the CoC. 2% of earning families in the CoC made at least 50% AMI.

*Please note that these analyses are preliminary and subject to change. All analyses are descriptive, and not meant to be interpreted as causal.*

- 2018
  - Family of 4
    - 30% AMI: $35,150
    - 50% AMI: $58,600

**Group Sizes**
- '15: 4,329 families
- '16: 5,092 families
- '17: 4,958 families
- '18: 5,093 families
On average, earners in FRSP experience an almost $800 increase in earnings after entering. Of adults in families not employed in the quarter before entering FRSP, 16% gain stable employment while in FRSP.

*Please note that these analyses are preliminary and subject to change. All analyses are descriptive, and not meant to be interpreted as causal.*

GAINS IN EMPLOYMENT + WAGES
Adults earners in FRSP programs experience an almost $800 increase in average quarterly earnings two years after entering.

*This slide’s analysis only includes people who entered FRSP after Q1 2015 and exited before Q4 2017, to allow time to elapse after they exited the program. Please note that these analyses are preliminary and subject to change. All analyses are descriptive, and not meant to be interpreted as causal.*
While in FRSP, 16% of adults in families who were not employed in the quarter before entry gained stable employment. 84% did not. While we are only looking at a small group of adults, those who gain stable employment return to Virginia Williams less often than those who did not. Both groups, however, return to Emergency Shelter or Transitional Housing at similar rates.

<table>
<thead>
<tr>
<th></th>
